Thank you for your interest in the programme.

Before beginning your application, please take a moment to consider the below checklist about what you will need to assist in completing the form.

## Programme Referees

You are required to provide details of at least two referees in support of your application: one of these should be your most recent employer and any others should be known to you in a professional capacity.

## Qualifications

If you have already undertaken formal qualifications such as a degree, you will be asked to provide evidence of this. Please have your transcript ready to upload if prompted.

## Performance and Plans

You will be asked about your academic performance to date: be prepared to explain your academic background, and whether or not you are in possession of a degree.

## GMAT, TOEFL and IELTS tests

If English is not your native language, you will be asked about your English-language proficiency and which tests you have taken to prove your capability in English.

English-language tests which the University recognises are the GMAT (Graduate Management Admissions Test), IELTS (International English Language Testing System). If you have undertaken any of these, please be ready to detail dates undertaken and total scores for the relevant test.

## Employment and Experience

You will be asked to detail your employment experience: please note that you only need to list your last two years of experience.

## Essay Question

If you do not have an undergraduate degree, you will be asked to complete a short telecoms-related essay question.

## Further Information

You will be asked to note how you heard about the course from a simple drop-down menu.
